It is said that President Roosevelt's message to Congress has been finished. The Congressional secretaries know enough to dust out a big pigeon-hole that will swallow up the message in its finished state.

The newspapers go on talking about tariff reduction and reciprocity just as if this is not a stand past administration and notwithstanding the impressive circumstance that the Ohio Republican convention a few days ago reiterated the slogan "let well enough alone." Ephraim is wedded to his idols.

At the Ohio Republican State convention the other day, Senator Foraker said: "Whereas, the Republican party is unalterably committed to protection it is not wedded to schedules." Of course not. The schedules are too devoted to the Protected Industries to think of marrying the Father of Protection.

GRAND JURY REPORT

"Some Foundation for the Alleged Cruelty to Convicts."

They Say.

MANY RECOMMENDATIONS

Reprimand For Superintendent and Presentment Against Foreman—Recorder's Court Recommended With Others.

"From the best testimony that we can gather from our investigation, the Grand Jury are of the opinion that there is some foundation for the alleged cruelty to convicts, and that after due consideration, we do recommend a severe reprimand to Superintendent W. H. Shearin and a presentment for brutal treatment of convicts by Foreman Hecout"—Extract from Grand Jury's report at yesterday's session of the Superior Court.

Having completed its work for the term, which included a very diligent inquiry into the sensational charge of cruelty to convicts at Castle Haynes, the Grand Jury came into the Superior Court yesterday afternoon a little after 4 o'clock, made report to His Honor, Judge T. A. Council, presiding, and were discharged for the term with thanks. The public was hardly prepared for the sensational clause in the report as to the alleged cruelty to prisoners and the reading of it served to add still greater interest to the proceedings.

And now having finished our duties we respectfully ask to be discharged. L. B. ROGERS, Foreman.

Justin M. Bunting, Secretary.

The personnel of the jury was as follows: L. B. Rogers, foreman; L. F. Saunders, B. B. Jackson, Jno. C. McAllister, R. H. Bowden, E. A. Hughes, J. H. Williams, F. W. Westerman, J. M. Bunting, J. F. Farrell, A. Shriver, Jas. W. Davis, J. H. Russell, H. W. Howard, J. M. Piver, G. H. Heyer.

It is learned in connection with the report that the incident of a convict dying within a short time after being whipped, occurred 18 or 20 months ago. The offence charged against Guard Gurganus is alleged to have occurred last Sunday. Witnesses testified that, although not on duty, he was in a state of intoxication and indulged in some remarks shooting at Castle Haynes. The County Commissioners at their meeting Monday will do not institute a searching inquiry into the conditions complained of and will take official action thereon.

The County Commissioners are fully in sympathy with the movement to ferret out everything the least discreditable and will apply any sufficient remedy.

COAST LINE YARD WRECK

Runaway Shifter and Freight Cars Dashed into Florence Passenger Train As Result of Former Collision.

A shifting engine attached to four

locomotives and a freight train, which had just been made up and was waiting to pull out on the regular schedule at 3:45 P. M. Fortunately no one was seriously injured, but two locomotives and a freight train were partially demolished.

The wreck came about in a most unusual manner and was discussed with much interest in railroad circles last night. Engineer J. W. Joyner and Yard Conductor Bullock had started out with a string of cars loaded with empty freight cars from the lower yards, the shifting engine pulling the cars with tender in front. At the same time Engineer Bowen was backing down the same track into the lower yards, a string of cars loaded with cotton that had been out at the old union depot until there was room for them at the compress. The shifter was behind the cars in the latter instance and Engineer Joyner saw that a collision was inevitable. He reversed his engine, but too late to avert the crash which came a moment later, derailling one of the cotton cars, smashing the tender of the outgoing train and breaking in the cab. Engineer Bowen was thrown from his engine, recovering his engine, he found the throttle knocked off and the steam on. He was powerless to do anything in such an emergency and the locomotive with cars in front ran back down the track, and the freight train, standing on the siding, at a speed of about 20 miles an hour. Fortunately Engineer Jim Houston, of Florence, was not in the cab, but either he or some one on the train had the presence of mind when they saw the cars coming back to throw on the emergency brakes to hold the passenger train from the crash. That act saved the passenger train from being pushed back into the brick station and off the end of the track in which event there would undoubtedly have been loss of life and serious injury as many of the passengers for the South had already boarded the coaches.

The runaway engine and freight cars dashed into the passenger locomotive, demolishing the pilot and crushing in the exhaust box in front of the boiler. The impact was great, sufficient to break glass in the windows of the coaches and throw passengers over the scales. Several of the passengers were treated by the railroad surgeons after which they resumed their trip. The two rear freight cars of the four that dashed into the passenger train were telescoped, making an ugly pile of wreckage. Several of the passengers were injured, and one of them, a woman, was killed. The wreckage was piled up in a most discreditable manner and the scene was a most shocking one.

Mr. A. B. Corlath, assistant superintendent of motive power of the C. O. L., was on the scene of the wreck in a moment of two of the wreck was cleared so that the Florence train pulled out only 45 minutes late, which was remarked upon as excellent work. The passengers injured were strangers, two or three of them being colored. Their injuries were slight.

VERDICT NOT GUILTY

Thomas Gillespie, Colored, Charged With Criminal Assault, Escapes Punishment

IN THE SUPERIOR COURT

Criminal Term Concluded Late Yesterday Evening—Nearly All Jail Cases Disposed of—Civil Suits Will Be Heard This Week.

After remaining on just 24 hours, several times receiving additional instructions from Judge Council, presiding, the jury in the Superior Court, engaged since Thursday afternoon at 4 o'clock in the trial of the case of Thomas Gillespie, charged with criminal assault, last night just before 11 P. M. returned a verdict of not guilty and the defendant was released from custody.

Until almost the hour of the verdict it seemed almost impossible that an agreement would be reached. Just before the jury took a recess for the term yesterday evening Judge Council had the jury brought into court and polled. Each juror, in response to inquiry from the court, stated that an agreement had been reached and each one gave his opinion that there was no likelihood of an agreement. Judge Council explained that he very much desired to leave on the evening train for Hot Springs, N. C., to exchange courts with Judge W. R. Allen, who comes to hold New Hanover court the remaining two weeks of the term, but the law was that the jury must be kept together a reasonable length of time, and that in one instance, which he read from the reports, the Supreme Court had held that 48 hours was not more than a reasonable length of time. He regretted very much to inconvenience the jury by keeping them longer together, but the law was otherwise. He would remain, if necessary, until Monday. In sending them back to the room, Judge Council said he would come again at 10 o'clock at night and ascertain the probability of reaching an agreement. At the 10 o'clock hour, the jury was again called and polled, each man answering that there was not probability of an agreement, but with less emphasis than during the afternoon. When the clerk was about half through calling the list, Juror Dailley said that while he could not read the minds of his colleagues, he believed the outlook for an agreement more encouraging than in the afternoon. That settled any possibility of a mistrial and Judge Council was about to order them back to the room, saying he would come again at 8 o'clock the following morning, when Mr. Jesse Wil-

TAKE PASTURE TREATMENT.

Daughter of Mrs. Kingsbury, Mrs. Lippitt and Mrs. Walker to Richmond.

The Shepherd dog of Mrs. Margaret Lippitt, which made such a vicious attack on little Margaret Kingsbury, daughter of Mr. and Mrs. Roger Kingsbury, Friday afternoon, biting the child severely on the arms and hands, developed further unnatural symptoms yesterday and attacked both Mrs. Lippitt and her daughter, Mrs. John M. Walker, biting them about the hands. The dog was immediately killed. As a precautionary measure, Dr. T. S. Burbank, the attending physician in all the cases, advised that those who had been bitten should go at once to Richmond, Va., for treatment in Pasture Institute. Accordingly, Mrs. Kingsbury and the daughter, accompanied by young Mr. Theodore Kingsbury, Mrs. Lippitt, Mrs. Walker and Miss Sarah Lippitt left last night for Richmond for the celebrated treatment. Their many friends hope that no untoward developments may come as a result of the bite of the dog and that they may return to the city early with no further cause for alarm. The dog has symptoms of hydrophobia, but it is sincerely hoped that nothing will come of the attack.

CHILD TOOK POISON.

Narrow Escape of Little Daughter of Capt. and Mrs. Bowen.

While playing in an open trunk in her mother's room at the residence of Mrs. W. H. Howell, No. 716 Market street, last yesterday afternoon, the little daughter of Capt. and Mrs. J. D. Bowen got hold of some medicine of a poisonous nature and with childish innocence took an overdose of the drug. The little one soon became unconscious as the result of the medicine, and a hasty call was sent for a physician, who arrived, fortunately, in time to counteract the effect of the poison. Last midnight the child had regained consciousness and all symptoms were hopeful for its early recovery.

Capt. Bowen is a well known and popular Seaboard Air Line conductor, between Wilmington and Hamlet.

A Convenient Way to Buy Coal.

We have a constantly increasing number of customers who purchase their winter's coal supply as they are able. When they have the price, they buy a ton, pay for it, and have it sent home. A little later on they get another ton and so on until their fuel supply is all in. Doing it this way the weight of the whole purchase is not felt. At the same time they have their fuel supply laid in and paid for ready for use before the winter comes.

If you cannot order your whole supply at once try this plan. We are as pleased at receiving an order for one ton and give the same attention as one for a large quantity.

The many friends are looking forward joyously to the twenty-fifth anniversary of the marriage of Mr. and Mrs. Louis Hanson, which falls in December.

The announcement of the engagement of Miss Mary M. Wootton to Mr. W. A. Davis is interesting to many friends. The date of marriage has not been decided, but is supposed will be next spring.

That which is said of you in the Society column is of interest to your friends; those who haven't the pleasure of your acquaintance will hardly give the item a second thought.

Capt. Robert P. Johnston, of the Engineer Corps of the United States army, has leased the comfortable cottage, 314 Ann street. Capt. and Mrs. Johnston have many acquaintances and are at home to friends.

Mrs. Robt. E. Post, of Baltimore, who has been on a visit to her parents, Mr. and Mrs. Jas. P. Post, 112 Second street, North, has returned to her home. Mrs. Post's visits are of much pleasure to a large circle of friends.

Mrs. D. O. Connor, Mrs. O'Connor and Mrs. E. K. Bryan returned yesterday morning from Saratoga, Adirondacks, N. Y., and other northern resorts. They will be home to friends during the winter at the handsome O'Connor home on Fifth street, South.

The announcement of the engagement of Mr. Peter N. Pick, Jr., to Miss Cecile Cutter, of Asheville, is received with pleasure by his friends. The marriage will take place in December, in Asheville. The young couple will make their home in New York City.

Another event of much pleasure in German circles is the approaching marriage in St. Paul's Lutheran church, November 12th, of Miss Friederich, daughter of Mr. Henry W. C. Habenicht. The couple are very popular in their circle and are receiving felicitous congratulations.

Parvelli was said, with feelings akin to grief, to Mr. and Mrs. W. H. Schaeffer and mother, Mrs. Jno. J. LeGwin on their departure to Richmond, Va., their future home. Mrs. Schaeffer was a prominent figure in her social circle and her absence will be sadly felt during the coming season.

The seventeenth of October is the date on which the marriage of Miss Agnes Anders to Mr. William F. Bisenger will be solemnized. It has not been decided as yet when the ceremony will be performed in St. Andrew's church or at the home of the bride's father, Dr. W. K. Anders, 415 Fourth street, North.

An unusually interesting and gay season is expected by members of the Country Club. Several golf tournaments of very great interest will be played during the usual social functions. The Country Club's membership contains the names of very many prominent and popular society people, who are very fine golfers and tennis players.

An event of very much pleasure in German circles is the approaching marriage of Miss Katharina, Julia Stolter to Mr. Fred G. Middleton in St. Paul's Lutheran church, October 11th. The prospective groom is of a prominent family, and is a successful planter. The couple will make their home on Mr. Middleton's plantation near Warsaw, N. C.

An announcement has been made of the engagement of Miss Hilda Davenport, daughter of Mr. and Mrs. B. Davenport, of Newbern, N. C., to Mr. Alan G. Lynn, son of Mr. H. Clay Lynn, of Richmond. The wedding will take place Oct. 17th in the home of the bride. Miss Davenport has visited Wilmington frequently and has many friends here who will be interested in the above announcement.

November fifteenth is the date set for the marriage of Mrs. Neesfield Green Wootton to Lieut. George Bridges Rodney in the United States Cavalry. Mr. Rodney is of an old and prominent family of Delaware, and is very popular in army circles. He has been assigned to several special duties, because of his special merit and mental attainments in his chosen field. The marriage will be a quiet home ceremony, performed at the residence of Mrs. Wootton's father, Mr. Geo. P. Cotchett. Mr. Rodney has been ordered to duty at Whipple Barracks, Arizona. The bride-elect is very popular and has a large circle of friends and relatives who feel a pang of regret that the

At Nashville on Friday, Miss Clyde Brier, aged about fifteen years, was horribly burned by the explosion of a can of kerosene oil. The young lady was preparing dinner and attempted to light the fire with oil when the can burst, enveloping her skirt in a sheet of flame. She ran out into the yard, and her cries for help attracted the attention of her step-father, Mr. Strum, who hastened to her assistance and endeavored to extinguish the flames about her hands and face. So severely was the young girl burned that she died about eight o'clock that evening after great suffering.

—Raleigh News and Observer: A bulletin just issued by the North Carolina Experiment Station is on "Farm dairies" written with the purpose of assisting to establish a better understanding of the most approved methods of handling dairy products and the improvements in the products of the dairies. By referring to the last census report it is found that few States have made equal progress with North Carolina in the improvement of live stock. With the exception of Tennessee there is no other Southern State that can show as large an average production of milk per cow as North Carolina. It is not only in dairying that this State is forging ahead, but along all lines of agriculture. And with this advance comes an ever increasing demand for agricultural knowledge.

MEN ARE POWERLESS
To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ is growing, is like pouring water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory result without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newborn's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

—Destroy the cause, you remove the effect.

HORRIBLE DEED OF INSANE MOTHER.

Killed Her Seven Children With An
Axe and Destroyed Herself—Woman
Was Insane.

By Wire to The Morning Star.
Rock Island, Ill., Sept. 30.—Mrs. Clarence Markham, a woman of 35, near here, in a fit of temporary insanity today killed her seven children with an axe, after which she placed their bodies on a bed, saturated it with coal oil and set fire to it. She then huddled her throat with a knife and threw herself on the burning bed. Neighbors rescued her but she was so badly burned that she died soon after she had made a confession. The oldest child was nine years of age, the youngest a baby in arms. Neighbors, attracted by the smoke of the burning dwelling rushed to the rescue and found Mrs. Markham covered with blood and badly burned. Barely able to tell her story, she at first declared the crime had been committed by a strange man but later when the sheriff arrived, she admitted that she had slain her children one by one and attempted to destroy their bodies and her own in the fire. Soon afterward she died. When the ruins of the home had cooled, a coroner of the county held an inquest. The formation of her story was had in the finding of the charred corpses, each with its skull crushed.

The Markhams lived apart from neighbors, the husband being employed as a laborer on a nearby farm. He was compelled to be away from home during the day. Having noted his wife acting queerly for several weeks he had kept the children, the oldest of whom was but 9 years of age, out of school to be with the mother. She was never known to exhibit violent tendencies previously.

To-night Markham committed suicide by shooting himself.

LYNCHES ARE TO BE TRIED.

Seven White Men Held for Murdering
Negro.

By Wire to The Morning Star.
Augusta, Ga., Sept. 30.—A special to the Chronicle from Abbeville, S. C. says:
The preliminary examination of John M. Ashley, J. R. Moore, J. P. Moore, Hugh Bowen, John Bigby, charged with lynching Allen Pendleton, colored, near Honeska Path on September 17, held here today. The State's case was based on witnesses who testified as to the threats made by defendants and the fact that they were in the crowd that took the negro away. Evidence was introduced by the defense to establish presence of the parties at another place when the lynching occurred. After hearing evidence the judge admitted the men to bail, placing bond at \$7,000 each which was furnished. Pendleton killed Jim Moore, a white man, while in a fight.

YELLOW FEVER

RECORD IS BAD

New Orleans Cases Reached
3,000 Up to Yesterday

With 388 Deaths

PENSACOLA IS RAVAGED

Fourteen New Cases There Yesterday—
Situation in Mississippi Growing
Worse Every Day—Alabama
Quarantines Against State.

By Wire to The Morning Star.
New Orleans, September 30.—The following is the official record of the yellow fever at New Orleans up to 6 P. M. today:
New cases today, 31.
Total cases to date, 3,000.
Deaths today, 2.
Total deaths to date, 388.
New feci, 11.
Under treatment, 240.
Discharged, 2,372.

The fever situation is steadily improving, despite the apparent fluctuations in the number of new cases daily. The very fact that only 31 new cases were reported on Saturday was a cause for satisfaction. A record of the week is a source of satisfaction. Ten of the new cases are above Canal street and four of the new feci. Three more cases were reported from the Jefferson parish, one of the river, two in McDonoughville and one in Gretna. The latter is a negro preacher. Of the deaths, one occurred in the French asylum on St. Anne street and the other was at the lower end of the city. It is quite a coincidence that the number of cases to date should reach an even 3,000 on the 30th of September.

Surgeons White left early this morning on a special train to meet the local health officers and the quarantine questions with them. Nothing has been heard from him since he left and he is not expected to return before Monday.

The only interesting news from the parishes is the uncovering of the two positive and one or two suspicious cases in and around Covington by the local health officer, whose diagnosis was confirmed by Dr. Brady, the State board's medical inspector. The parish health officer reports that the Neuhans infection case was found in Springs, confirming the belief of concealed infection in that vicinity.

Country reports showed thirty-two new cases and two deaths.

Mississippi Condition Serious.
Jackson, Miss., September 30.—The Mississippi yellow fever summary to night is as follows: Victimsburg, 12 new cases today; deaths today, 2. Four cases in suburbs. Cases to date, 94; deaths to date, 13; under treatment, 41; total feci, 45.
Hattburg, 3 new cases; under treatment, 21; cases to date, 35; deaths to date, 6.
Gulfport, new cases, 2.
Mississippi City, one new case.
Hansboro, one new case.
Port Gibson, no new cases, six suspicious.

No report from Harrison.
Roxie, two suspicious, no deaths.
Scott Point, four cases.
Morgan, three cases.
Natchez, seven new cases, no deaths.
No additional points of infection are reported.

Seven New Cases at Natchez.
Natchez, Miss., Sept. 30.—An unpleasant development in the local situation came to light when two cases that had been taken to the hospital yesterday evening were diagnosed as yellow fever. The patients are negroes and resided in an alley in the rear of Main street in the same block as some of the past cases. Another new focus sprang up in the extreme northern part of the town. Two of the seven new cases are white. The official report is as follows: New cases today, 7; total, 92. New feci, 2; total deaths, 5; cases under treatment, 31; discharged, 42.

Birmingham, Ala., September 30.—State Health Officer W. H. Sanders after consultation with the local board of health today announced that Alabama had quarantined against the entire State of Mississippi, effective at 6 o'clock this afternoon. This action is supposed to be consequent upon the spread of yellow fever in numerous Mississippi towns, although official explanation is withheld.

Pensacola, September 30.—Fourteen new cases to yellow fever and three deaths are announced today.

A new city ordinance requiring property owners to keep their premises free from standing water was applied today when two arrests were made.

The detention camp near McDavid, Fla., will be ready to receive refugees Monday morning. It is provided with 25 large tents and will accommodate 100 persons. About 250 are already registered and are waiting to gain admittance. The camp will be in charge of Surgeon Charles E. Banks, of the Marine Hospital Service.

Among the new fever victims today is Superintendent Williams, of the county poor farm, three miles north of Pensacola. There are at present few inmates at the farm and the superintendent's case will be closely guarded to prevent any further infection among the charges there.

Unlucky Room Thirteen.

By Wire to The Morning Star.
New York, Sept. 30.—Earl this morning two men were burned to death as they slept, two others were so badly burned that they died later, and several others suffered serious, but probably not fatal injuries in a fire in a two-story saloon restaurant and lodging house at Nos. 221-223 West street. The two men burned to death occupied room No. 13 in the rear of the building. They were overcome by smoke in their bed. All the occupants in the house were sailors and longshoremen, except one woman, the house keeper.

Those who suffered death and injury were suffocated and burned within a few minutes, the fire being extinguished before the damage exceeded \$3,000. The fire is believed to have resulted from the carelessness of a drunken sailor, who is known to have entered the stairway to the upper floor early this morning.

TEXAS MURDER FIEND

ESCAPED FROM SHERIFF

Killed Five People and Will Be Burn-
ed Alive If Recaptured—Evidence
Is Strong.

By Wire to The Morning Star.
Houston, Texas, Sept. 30.—Monk Gibson, a negro, created yesterday in connection with the murder of Mrs. A. J. Condit and her four children at Edna, Texas, on Thursday, made a bold dash for liberty last night, and escaped from the posse having him in charge. Officers declare that Gibson knows all about the crime. The posse is searching for the negro and he will probably be recaptured.

S. H. Beasley, father of Mrs. Condit, issued an appeal to the people of the Edna community today. It was to the effect that the sheriff was criminally negligent in allowing Gibson to escape and declared Beasley's intention of taking the negro from the authorities when recaptured and "burn him for a week" if the people would stand by him. A large number of people showed approval and yelled at the sheriff, "Why didn't you handcuff the negro?"

Sheriff Egg replied: "It's easy to ask that now, but if any of you want to make a personal matter of it, just step out from that crowd and we will settle now."

The people of Jackson county are in a high state of excitement and many avow that they will burn Gibson when he is apprehended. The officers say they will protect the negro and serious trouble may result.

The only development tonight in the escape of Monk Gibson, the negro accused of the murder of the Condit family, is the arrest of the father, mother, sisters and brother of Gibson. Ten persons in all have been taken into custody by the officers.

A bundle of partially burned bloody clothing was found in the home of the negroes at Edna, and Gibson made a statement that when Monk came home on the afternoon of the tragedy he told his mother that he had killed the Condit family. His mother said that Monk had told her he knew who did it. There are men here now from all this end of the state, and there is a decided air of unrest.

Late tonight Clarence E. Markham, husband and father of the victims of the tragedy committed suicide by shooting.

BATTLESHIP MISSISSIPPI.

Powerful New War Vessel Launched
in Philadelphia Yesterday.

By Wire to The Morning Star.
Philadelphia, Sept. 30.—In the presence of a distinguished party of guests, the battleship Mississippi was launched today at the shipyard of the Cramp Ship and Engine Building Company. The vessel's sponsor was Miss Mabel Clare Money, daughter of United States Senator Money. Owing to the prevalence of yellow fever in the South, Governor J. K. Vardaman, of Mississippi, and his staff were unable to attend the launching. The governor was represented by Senator Money. The guests included Admiral Dewar, Lieutenant Commander Wood, Rear Admiral Rogers, Mayor Weaver, of this city, naval officers stationed here and in Washington, and many prominent civilians.

The christening party consisted of Senator and Mrs. Money, Miss Money and her fiancée, Dr. William Whitney Kitchen. They were escorted to the yard by General George B. Williams, Cramp's Washington representative, who accompanied them to this city. Immediately after the launching luncheon was served in the Mold Loft.

Special interest is attached to the battleship Mississippi since it will carry the smallest displacement of any United States battleship now being built, with the exception of the Idaho, a sister ship. The displacement of these two vessels is 12,000 tons each while all the later battleships, including the Vermont, Kansas and Minnesota, now building in other shipyards, have a displacement of 16,000 tons.

The Mississippi is 375 feet in length, with a beam of 45 feet and a draft of 17 feet. The speed requirement is 17 knots. The vessel is to be equipped with the latest armament of the navy, the Mississippi carries equally heavy batteries.

FAREWELL AT OYSTER BAY

Neighbors Give Him Flattering Part-
ing Greeting—Thousands Cheer at
Capital—President Deeply
Touched.

By Wire to The Morning Star.
Oyster Bay, L. I., Sept. 30.—With the cheers and good wishes of his neighbors and friends following him, President Roosevelt, his summer vacation ended, left Oyster Bay to-day for Washington. The farewell given the President by the residents of his home town was notable. Throughout the village, residences and business buildings were decorated.

At the railroad station over the entrance to the waiting room a white dove with outstretched wings perched on an American shield, had been placed. Beneath this emblem was the one word "Peace." The whole was flanked by the National colors of Russia and Japan.

At the station hundreds of the neighbors and acquaintances of the President and his family had assembled. Scores of school children were massed about the platform, each waving a little American flag. Twenty young women attired in white trimmed with ribbons of red and blue sang "God Be With You 'Till We Meet Again." The President was accompanied to Washington by Mrs. Roosevelt, and their children Ethel, Archie and Quentin.

While the President and family were being driven to the village from Sagamore Hill, the rear axle broke of their road wagon, and the back part of the wagon settled down. Fortunately the axle did not break short off, but splintered, and the body of the wagon did not fall to the ground. The coachman stopped the horses immediately and the President rode to the station in a borrowed carriage.

At New York.
New York, Sept. 30.—The Presidential party arrived at Jersey City at noon and were escorted by a detachment of police to the special Pennsylvania railroad train which was in waiting for them. The trip from Long Island City on the Pennsylvania ferry boat Nassau was without incident save that Engineer Truworthy, of Holton, Mo., of the Nassau, expressed a desire to speak with the President. Truworthy is an old friend of President Roosevelt's guide in Montana. As the engineer could not leave his post the President walked down to the engine room and chatted with Truworthy several minutes.

Ovation at Washington.
Washington, Sept. 30.—Thousands of his fellow citizens turned out to welcome President Roosevelt to the National capital this evening and made his home coming the occasion for an ovation from the time he was sighted on the platform of his car until he passed within the doors of the White House. The President was touched by the welcome and especially by its spontaneity.

"It was awfully kind of them to come out to greet me," he remarked, to some friends at the White House, "and I was deeply touched by their welcome."

A mighty cheer went up as the crowd inside the depot caught sight of the President, which was taken up by the crowds outside of the station and passed along the line as the President was recognized. He shook hands with the cabinet members and other officials. Then giving Mrs. Roosevelt his arm, he walked slowly to his carriage. As he reached the engine, the President thanked the engineer for his safe trip, and stopped to shake his hand.

He frequently crossed and bowed to the cheering crowds on both sides of the avenue, and during the latter part of the drive, the "hurrah" became so enthusiastic that the President stood most of the time. Mrs. Roosevelt was greatly pleased with the greeting and her face was radiant as she bowed to the right and left.

Interesting Railroad Gossip From
State Capital—A. & N. C.
(Special Star Telegram.)

Raleigh, N. C., Sept. 30.—Announcement is made tonight of the reorganization of the Raleigh and Pamlico Sound Railroad Co., now building from Raleigh to Washington, N. C., in which C. O. Haines, of Ohio, and the North Carolina Railroad Co. chartered in 1903, has been elected president to succeed J. M. Turner, the Haines Company having secured a controlling interest. Enthusiastic denial is made of the report that the Atlantic Coast Line is in any way connected with the deal. Work is to go on without interruption with additional plans to, after building to Washington, to continue to Newbern connecting there with the Norfolk and Southern. There is also a report here to-night that the Norfolk and Southern has been purchased by the Atlantic and North Carolina Railroad Co., or rather by the Howland interests that leased the A. & N. C. from the State.
